

AbrahamColeman

Drupal/Front-End Web Developer

Employment

Present • Front-End Web Developer
University of Nebraska-Lincoln
Responsible for the front-end web development of Academic Services and Enrollment Management digital marketing initiatives. Work closely with the Web Design Coordinator to implement site design and translate it to standards-compliant, cross-browser markup and styles. Also responsible for ensuring the Academic Services and Enrollment Management websites meet current accessibility requirements.

2014 - 2015 • Web Designer/Developer Intern
Viking Pump, Inc.
Assisted the senior web developer with the creation/maintenance of the many sites that are managed by the company. Duties included developing in ASP, HTML/CSS/JavaScript, and Drupal/PHP.

2014 • Web Designer
Office of Research and Sponsored Programs
Upgraded present site to a more modern and cohesive Drupal 7 site. Custom JavaScript is being used to build menus/news feeds.

2014 • Web Designer/Developer
Gallagher-Bluedorn Performing Arts Center
Designed and developed the back end of an usher registration site. Highly dynamic emails are sent when ushers sign up for shows. This results in administrators having to do minimal outside work.
